Introducing the timeless elegance of the Herald range.

For over 40 years, the Herald Range has stood as one of the UK's most beloved, trusted, and best-selling stove collections. A collection that epitomises both tradition and innovation in stove design. Crafted with the utmost attention to detail, each stove in the Herald range is adorned with classic cast iron accents that evoke a sense of enduring craftsmanship. Yet, the expansive stove windows offer more than just a picturesque flame; they serve as a captivating focal point that seamlessly complements any setting.

Whether you reside in a quaint country cottage or a modern town house, the versatile style of the Herald range adapts to the unique character of your home. For those seeking to make a design statement without compromising on the comforting ambiance only a real fire can provide, look no further than the Herald range.

With a Herald, you're choosing more than just a stove, you're choosing a piece that brings warmth, charm, and a touch of sustainability to the heart of your home.

Stove Dimensions

Any appliance bought through the showroom of an authorised Hunter Stoves Group dealership will automatically be covered by our standard 2 year conditional guarantee.

This standard 2 year warranty can be extended to a 10 year conditional warranty for our wood-burning stoves and 5 years for our boiler stoves. For full warranty specifications and terms and a list of authorised stockists, please visit hunterstoves.co.uk.

Sustainable warmth: Our commitment

Choosing a stove from Hunter Stoves Group means more than just adding a reliable and cosy heat source to your home; it signifies a commitment to a sustainable future. We've formed a meaningful partnership with Ecologi, an organisation focused on real climate action. Each month, we contribute to both tree planting initiatives and other climate positive projects, aligning with Ecologi's ambitious goal to halve global CO2 emissions by 2040. As you enjoy the comforting warmth of your Herald Stove, you can also take comfort in knowing that your choice supports broader environmental stewardship. You can track these contributions and their impact through our dedicated page on Ecologi's website ecologi.com/hunterstovesgroup

Ecologi

ECO DESIGN TECHNOLOGY

The Herald range's dependable performance has been enhanced to ensure it meets the demands of the modern world. Now featuring Eco Design technology, the Herald Stoves continue to offer the warmth and comfort you've come to love, whilst surpassing the latest environmental standards.

Herald 4 Eco

WATER OUTPUT RANGE UP TO 10KW

HOT WATER STORE

Suitable for open vented systems up to 10 radiators.
Number of radiators is dependent on system size.

Options

DEFRA APPROVED

If you reside in certain areas of the UK, you may be familiar with the restrictions imposed by the Clean Air Act, particularly for those in designated Smoke Control Areas. Violating this act could result in a fine up to £1000.

However, our stoves offer an exception to this rule. They have been designed to produce minimal smoke and have therefore received an exemption from DEFRA's Clean Air Regulations. This permits you to burn wood in our approved stoves, even if your home is within a Smoke Control Area or Smokeless Zone.

The technology within our stoves maintains consistently low emissions, complying fully with the guidelines set by the Department for the Environment, Food & Rural Affairs. If your residence is located in a Smoke Control Area, you will find our stoves not only meet regulatory standards but in fact exceed them meaning you can enjoy the comfort of a wood-burning fire without compromising on environmental responsibility.

GRATE & ASHPAN

Equipped with a grate and ash pan, the Herald stove offers hassle-free maintenance and is perfect for those looking for a simple way to remove ash from their stove. These built-in features enhance combustion efficiency and ease of use.

TRADITION MEETS TECHNOLOGY

Independently CE & UKCA Tested and Approved - All of our Herald stoves have been independently certified meeting the stringent CE & or CA requirements.
